About GMC Consultancy

GMC Consultancy is a growing renewable, electrical and mechanical engineering firm operating across Derry, Donegal and the wider cross-border region. We deliver high-quality installations across the residential, commercial and healthcare sectors, with a strong focus on renewable energy and modern building services.

Role Overview

We are looking for an experienced Lead Electrician to join our team and take charge of a three-person gang. You will oversee day-to-day electrical installations across a varied portfolio of projects, ensuring quality, compliance and safe delivery on every site. This is a senior, hands-on role with strong earning potential and genuine long-term prospects.

Key Responsibilities

- Lead and supervise a gang of three electricians on active sites.
- Install and commission Solar PV systems to SEAI standards.
- Install and commission air-to-water heat pump systems.
- Install HRV (heat recovery ventilation) systems.
- Carry out underfloor heating wiring and controls.
- Complete full house wiring on new-build and renovation projects.
- Manage electrical works on nursing home and healthcare projects.
- Ensure all work meets current ETCI Wiring Regulations (ROI) and BS 7671 (NI) as applicable.
- Maintain accurate records, sign-off documentation and quality checks.

- Liaise with project managers and site supervisors to keep work on programme.
 - Mentor and support junior members of the gang.
-

Essential Requirements

- Fully qualified electrician with a recognised registration body (RECI, ECSSA, NICEIC, or equivalent).
 - Proven experience across the types of installation listed above.
 - QC (Quality Competent) status and/or SEAI Solar qualification preferred; training provided for the right candidate.
 - Solid understanding of cross-border electrical standards (ROI and NI).
 - Full, clean driving licence.
 - Strong communication skills and the ability to lead a small team effectively.
-

Desirable

- Experience in nursing home or healthcare environments.
 - Safe Pass and Manual Handling certifications.
 - Experience working on SEAI-registered solar PV schemes.
-

What We Offer

- Base salary of €57,000 to €65,000 depending on experience.
 - Quarterly performance bonus bringing total package to up to €80,000.
 - Company van, full set of tools and fuel included.
 - SEAI Solar and QC training provided where required.
 - Steady pipeline of work across Derry and Donegal.
 - Cross-border operation with ROI and NI applicants equally welcome.
 - A stable, growing business with real career development.
-

How to Apply

Qualified applicants only. No agencies.

Send your CV to:

accounts@gmc-consultancy.com

Please include your registration body and any solar qualifications in your email.
